E. ADMINISTRATIVE INFORMATION

A. Background information on SPREP

The *Secretariat of the Pacific Region Environment Programme* (SPREP) is the regional organisation established by the Governments and Administrations of the Pacific charged with protecting and managing the environment and natural resources of the Pacific.

The head office is based in Apia, Samoa with other SPREP offices in Fiji, the Republic of the Marshalls Islands and Vanuatu.

SPREP has around 150 staff and has an annual budget of approximately USD35 million in 2022.

The establishment of SPREP in 1993 sends a clear signal to the global community of the deep commitment of Pacific Island Governments and Administrations for better management of the environment within the context of sustainable development.

The strategic direction for SPREP is clearly set out in the 2017-2026 SPREP Strategic Plan. The Plan outlines the mandate, vision and programmes for the organisation, and places strong emphasis on effective delivery of services to SPREP Member countries and territories.

Mandate

SPREP's **mandate** is to promote cooperation in the Pacific region and provide assistance to Pacific Island countries and territories in order to protect and improve its environment and to ensure sustainable development for present and future generations.

Vision

SPREP is guided by its **vision for the future**:

"A resilient Pacific environment, sustaining our livelihoods and natural heritage in harmony with our cultures".

Members

SPREP has 21 Pacific Island member countries and territories:

▪ American Samoa	▪ Northern Marianas
▪ Cook Islands	▪ Palau
▪ Federate States of Micronesia,	▪ Papua New Guinea
▪ Fiji	▪ Samoa
▪ French Polynesia	▪ Solomon Islands
▪ Guam	▪ Tokelau
▪ Kiribati	▪ Tonga
▪ Marshall Islands	▪ Tuvalu
▪ Nauru	▪ Vanuatu
▪ New Caledonia	▪ Wallis and Futuna
▪ Niue	

and 5 'metropolitan' member countries with direct interests in the region:

- Australia,
- France,
- New Zealand,
- United Kingdom and
- the United States of America.

SPREP Goals and Objectives

The Secretariat continues to strengthen and realign its institutional capacities, competencies, and systems to best support its Members by delivering more integrated, responsive, and cost-effective services to Members and partners and by better coordinating regional efforts.

SPREP's Pacific and metropolitan members agreed that SPREP's Strategic plan should span 10 years to address critical environmental and related social and governance strategic priorities, which are reflected in the strategy's regional and organisational goals and objectives, as well as in SPREP's core 'Values'.

Regional Goals

- **Regional Goal 1:** Pacific people benefit from strengthened resilience to climate change;
- **Regional Goal 2:** Pacific people benefit from healthy and resilient island and ocean ecosystems;
- **Regional Goal 3:** Pacific people benefit from improved waste management and pollution control;
- **Regional Goal 4:** Pacific people and their environment benefit from commitment to and best practice of environmental governance.

Organisational Goals

- **Organisation Goal 1:** SPREP has information, knowledge, and communications systems that get the right information to the right people at the right time and influence positive organisational, behavioural and environmental change.
- **Organisation Goal 2:** SPREP has multi-disciplinary processes in programme delivery and in supporting Members to develop national and regional policies and strategies.
- **Organisation Goal 3:** SPREP has a reliable and sustainable funding base to achieve environmental outcomes for the benefit of the Pacific islands region and manages its programmes and operations to stay within its agreed budget.
- **Organisation Goal 4:** SPREP is leading and engaged in productive partnerships and collaboration.
- **Organisation Goal 5:** SPREP has access to a pool of people with the attitudes, knowledge, and skills to enable it to deliver on its shared regional vision.

SPREP's Values

SPREP approaches the environmental challenges faced by the Pacific guided by four simple **Values**. These values guide all aspects of our work:

- We value the **Environment**
- We value our **People**
- We value high quality and targeted **Service Delivery**
- We value **Integrity**

B. The PEBACC + project

From 2015 to 2020, SPREP has implemented the Pacific Ecosystem-based Adaptation to Climate Change (PEBACC) project in Fiji, Vanuatu and Solomon Islands, with a budget of €4.9M, funded by the German Government's International Climate Initiative. Following this first phase and based on the main results, outputs and lessons learned, a second phase has been designed and submitted to the 2020 call for regional projects under the Kiwa Initiative to strengthen existing activities, diversify them, integrate ecosystem-based adaptation (EbA) into public policies to ensure its sustainability, and extend the approach to other territories: New Caledonia and Wallis and Futuna.

Officially started in March, 2020, the “[Kiwa Initiative – Nature-based Solutions for climate resilience](http://www.kiwainitiative.org)” (www.kiwainitiative.org) is the first programme ever to gather five donors (France, the European Union, Canada, Australia and New Zealand) and regional/national partners around a common objective : to enhance access to funding for rights-based gender-sensitive and socially-inclusive climate change adaptation through nature-based solutions for Pacific Island Countries and Territories (PICTs), including local, national and regional authorities as well as civil society organisations. Taking action to protect biodiversity (conservation/restoration) and developing Nature-Based Solutions (NBS) to anticipate, reduce vulnerabilities and strengthen adaptive capacities of Pacific Island Countries and Territories in the face climate change are the core governing principles of the Initiative.

The project « Pacific Ecosystem-based Adaptation to Climate Change – PEBACC+ » is a regional project of the Kiwa Initiative and SPREP has been granted €4M by the Kiwa Initiative through the *Agence française de développement* (AFD) and €1,8M by the French Facility for Global Environment (FFEM) for its implementation. This 4-year project seeks to strengthen the resilience of ecosystems, economies and people in Fiji, Vanuatu, Solomon Islands, New Caledonia and Wallis and Futuna to the impacts of climate change. The specific objective of the PEBACC+ project is to develop, sustain and institutionalise the ecosystem-based approach to climate change adaptation in the target countries and territories.

The project is organised around three components:

- **Component 1:** Strengthen stakeholders' experience in the practical implementation of EbA and Nature-based Solutions (NbS) as a climate change adaptation strategy in Fiji, Vanuatu & the Solomon Islands.
- **Component 2:** Integrate and support the implementation of the EbA and NbS approach as a strategy contributing to climate change adaptation in New Caledonia and Wallis & Futuna.
- **Component 3:** Strengthen regional cooperation between Pacific Countries and Territories in the area of EbA by promoting the sharing of experiences and lessons learned from projects to increase the resilience of populations and ensure the sustainability of EbA implementation activities.

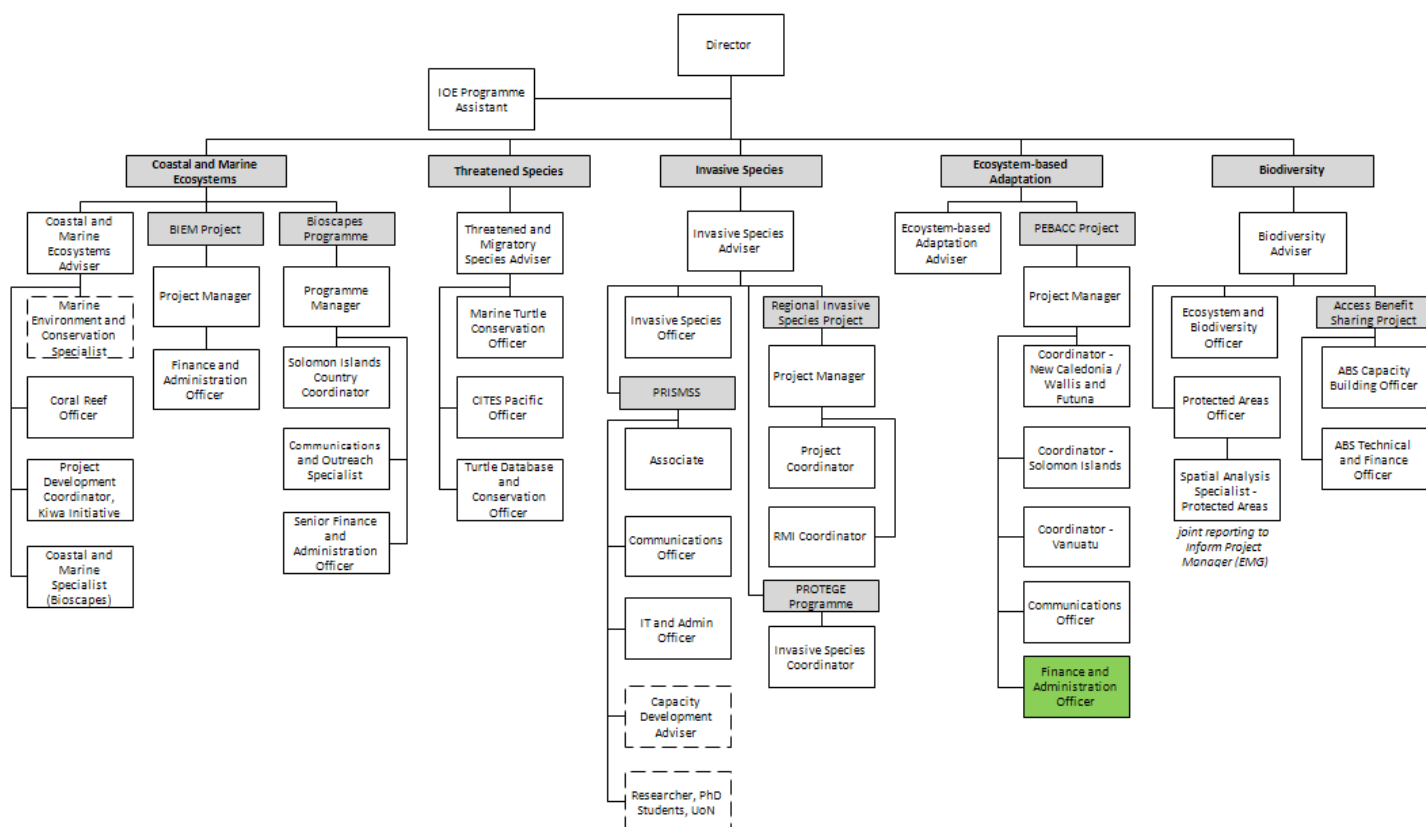

The project will be coordinated and managed from the SPREP Office in Suva, Fiji.

PEBACC + requires the services of a Finance & Administration Officer (FAO PEBACC +) to be based at the project office in Suva. The FAO PEBACC + will provide support to the Project Manager and other project staff in matters related to the administration and financial management of the project.
