

Results Measurement Table - Regional E-waste Management Example

The results measurement table shows key indicators and sources of data for monitoring and evaluation of Activities.

Results	Indicator(s)	Baseline Information* and Targets	Methodology and Data Sources
Long-Term Outcomes			
Improvement in the economic, health and environmental sustainability of the Pacific region	<ul style="list-style-type: none"> Human Development Indicator (HDI) improvements Millennium Development Goal (MDI) improvements 		<ul style="list-style-type: none"> Basel and Waigani Convention reports National and department data and budgets HDI /MDG / WHO reports
Medium-Term Outcomes			
Cost-effective and self-sustaining priority hazardous and solid waste management systems adopted and in place	<ul style="list-style-type: none"> Number of sustainable waste management systems adopted and implemented Number of national hazardous waste stockpiles 	<ul style="list-style-type: none"> Increased number of sustainable waste management systems adopted and implemented Reduced number of national hazardous waste stockpiles 	<ul style="list-style-type: none"> National hazardous waste stockpile observations and reports Monitoring reports / first-hand observation Health department data Environmental department data
Short-Term Outcomes			
Pacific E-waste status and management options assessed and prioritized	<ul style="list-style-type: none"> Assessment report with priority list of actions completed and approved Best management practices endorsed by international technical experts (e.g. WHO and the Basel Secretariat) 	<ul style="list-style-type: none"> Assessment completed Projected E-waste generation rates available for planning 	<ul style="list-style-type: none"> Project reports and documentation Steering Committee report National reports WHO/Basel Secretariat reports
Best available practices in E-waste management implemented in Pacific countries.	<ul style="list-style-type: none"> E-waste stockpiles collected and stored for safe disposal 	<ul style="list-style-type: none"> Stockpiles collected 	<ul style="list-style-type: none"> Reports by national authorities, technical advisory committee and national coordination committees Monitoring reports/ first-hand observations
Increased capacity to mitigate and better manage E-waste streams	<ul style="list-style-type: none"> Training needs assessment report endorsed by national authorities Personnel are trained for O&M Adequate institutional financial measures to 	<ul style="list-style-type: none"> Training operationalized nationally Routine collection of user-pays funds into trust fund International convention obligations 	<ul style="list-style-type: none"> Monitoring reports Training reports Hazardous and solid waste management policy, strategies, legislation and regulations

Results	Indicator(s)	Baseline Information* and Targets	Methodology and Data Sources
	<ul style="list-style-type: none"> prevent the recurrence of E-waste stockpiles are in place National officers are applying the requirements of the Basel and Waigani Conventions All trans-boundary movements of hazardous wastes accompanied by Basel/Waigani notification papers Port waste reception facilities audit approved to IMO standards 	discharged	<ul style="list-style-type: none"> endorsed by National authorities Port waste reception facilities audit
Regional collaboration and information exchange on waste management practices	<ul style="list-style-type: none"> Network between similar Pacific island countries established to share experiences and provide training Network of Pacific Recyclers Best practices and lessons learned adopted by PACPs and other countries 	<ul style="list-style-type: none"> Regular information exchange facilitated 	<ul style="list-style-type: none"> Pacific Recyclers network charter and terms of reference Project documents Monitoring reports and observation
Outputs			
1. Regional E-waste inventory	<ul style="list-style-type: none"> Prioritised Regional E-waste interventions 	<ul style="list-style-type: none"> Management policy, strategies, legislation and regulations endorsed by National authorities 	<ul style="list-style-type: none"> Evaluative assessment
2. Regional E-waste management guidelines	<ul style="list-style-type: none"> Best practice Regional E-waste management guidelines available 	<ul style="list-style-type: none"> Management policy, strategies, legislation and regulations endorsed by National authorities 	<ul style="list-style-type: none"> Evaluative assessment
3. Regional training needs assessment	<ul style="list-style-type: none"> Regional training needs assessment 	<ul style="list-style-type: none"> Management policy, strategies, legislation and regulations endorsed by National authorities 	<ul style="list-style-type: none"> Evaluative assessment
4. Regional institutional and financial assessment	<ul style="list-style-type: none"> Regional institutional financial measures to prevent the recurrence of E-waste stockpiles assessment 	<ul style="list-style-type: none"> Management policy, strategies, legislation and regulations endorsed by National authorities 	<ul style="list-style-type: none"> Evaluative assessment

Results	Indicator(s)	Baseline Information* and Targets	Methodology and Data Sources
5. Port waste reception facilities audit	<ul style="list-style-type: none"> Port waste reception facilities audit 	<ul style="list-style-type: none"> Management policy, strategies, legislation and regulations endorsed by National authorities 	<ul style="list-style-type: none"> Evaluative assessment
6. Regional recycling network between Pacific island countries	<ul style="list-style-type: none"> Regional recycling network established 	<ul style="list-style-type: none"> Pacific Recyclers network charter and terms of reference 	<ul style="list-style-type: none"> Evaluative assessment
7. Regional institutional arrangements for user pays financing of E-waste disposal implemented	<ul style="list-style-type: none"> National trust fund for E-waste disposal established 	<ul style="list-style-type: none"> E-waste managed in a sustainable manner utilising best practice 	<ul style="list-style-type: none"> Evaluative assessment
8. Export of priority E-wastes	<ul style="list-style-type: none"> Annual National E-waste Day 	<ul style="list-style-type: none"> Medium-term E-waste storage facilities constructed Port facilities upgraded Public education programmes completed National recycling opportunities identified National E-Days held 	<ul style="list-style-type: none"> Evaluative assessment
9. Routine monitoring and reporting on regional E-waste management	<ul style="list-style-type: none"> Annual status report 	<ul style="list-style-type: none"> Status report released within 24 months of programme inception 	<ul style="list-style-type: none"> Evaluative assessment

*Baseline information in this example would be collected as key outputs
