Dear Mr. Takesy

**RE: PACIFIC ADAPTATION TO CLIMATE CHANGE FULL SIZED PROJECT - BREAK UP OF THE USD 3 MILLION.**

As pledged in my letter on co-financing dated 5<sup>th</sup> February 2007, the following are the estimates of what will be used in the implementation of the PACC Project through the existing development activities in the food production and food security sector as well as the contribution from the DEC Water Resources Division and other sources yet to be explored (PNG Sustainable Ltd).

- |   |                 |
|---|-----------------|
| 1. Donor Funded Projects (FAO, EU,)               | = USD 1 million |
| 2. National Department of Agriculture & Livestock | = USD 1 million |
| 3. Central Provincial Administration              | = USD 500 000   |
| 4. DEC - Water Resources Division                 | = USD 500 000   |

One again we look forward to the GEF's approval of this most important project to support our climate change adaptation efforts at the national and community level.

Yours sincerely

**ANTON K. BENJAMIN**  
Secretary
