Subject: Request for tenders (RFT): Provide Organics Management Training to 14 Pacific Island Countries and Timor-Leste

Question 1:

Can you provide a cost range or indication of fee value for this work – excluding the option extra item please?

Response:

Seeking responses to provide cost breakdown to justify the quotation.

Question 2:

Previous experience indicates that training may be required to be undertaken in person over more than one day to ensure the training can be effectively communicated. Are SPREP open to an alternative methodology being provided?

Response:

The pilot training delivered in Tuvalu must be delivered over one day - on August 1, 2024. For the roll out of the training region-wide, the TOR states the training is designed to be the equivalent of a one-day training course, but may be delivered over several days if appropriate. We are open to an alternative methodology being provided in proposals.
