To: Interested suppliers
Contact: Maraea S. Pogi
Subject: Request for tenders: Formulation of the Honiara Botanical Gardens Management and Business Plan

Q1. What kind of base information is available about the botanical gardens site - has a detailed site survey previously been done?

Response:

A number of baseline survey has been done in the recent past mostly focusing on the all the plant species within the botanical gardens. There is also available historical data from the initial collection of species for the establishment of the site. Some fauna studies have been done with available data although not very representative as the garden has changed over the last few years.

Q2. What information is available about the site water catchment, including flow and storm event information?

Response:

Solomon Water has small reservoir within the botanical gardens supplying the Honiara CBD and has data on flow and storm water. In addition to that to there is available raw data for the botanical gardens stream from a recent survey by the Ministry of Environment here in the Solomon Islands.
